Subject coordinator	Piotr Szwedo		
Lecturer	Piotr Szwedo, Lena Helińska		
Period Semester 3	Examination -	Activities and hours Workshop: 5	Number of ECTS points 0.0
Period Semester 4	Examination assessment	Activities and hours Workshop: 5	Number of ECTS points 1.0

Goals

C1	Interdisciplinary students will participate in selected courses together with law students. The workshops are tailor-made to bridge the gap between their experience in legal matters, using interdisciplinary concepts to familiarize students with legal thinking. The course is a part of the 9 ECTS module "International Economic Law & Politics".

Workshop		Pass/fail on the basis of active participation at the end of the year

Semester 4

Teaching methods :

text analysis, brainstorming, discussion, case study, gamification

Activities	Examination methods	Credit conditions
Workshop	credit	Pass/fail on the basis of active participation at the end of the year

Entry requirements

None

Literature

Obligatory

1. Materials distributed in class.

Effects

Code	Content
JBS_K1_K03	The graduate can consider different visions of the future and develop own evidence-based opinions in reference to the balance of values linked to economic development, social welfare, and environmental protection.
JBS_K1_K05	The graduate can defend the importance of scientific data and methods as a basis for decision-making.
JBS_K1_U02	The graduate can present and report knowledge, methodologies, ideas, problems and solutions, clearly and comprehensively, in different forms destined for different audiences - including discussions and debates which require defending a substantiated opinion, as well as conversations in a foreign language at the CEFR B2 level.
JBS_K1_U03	The graduate can apply adequate methods and tools, including selected IT tools, to solve problems related to data collection, analysis, and management in the context of sustainability.
JBS_K1_U04	The graduate can plan and effectuate simple sustainability-related projects under supervision and in the context of personal lifelong learning, both individually and in a team, using appropriate transversal skills and taking shared responsibility for the outcome.
JBS_K1_W03	The graduate can give examples of sustainability-related dilemmas and hypothesize on the optimal course of action.
JBS_K1_W06	The graduate can describe interconnections between various aspects of sustainability and identify their significance in the context of natural and social sciences, with a special focus on disciplines included in the selected specialisation track (law and politics; chemistry and physics; chemistry and biology; economics and geography; economics, management and engineering; humanities).
